for the actress, Pearlie Brainstorm

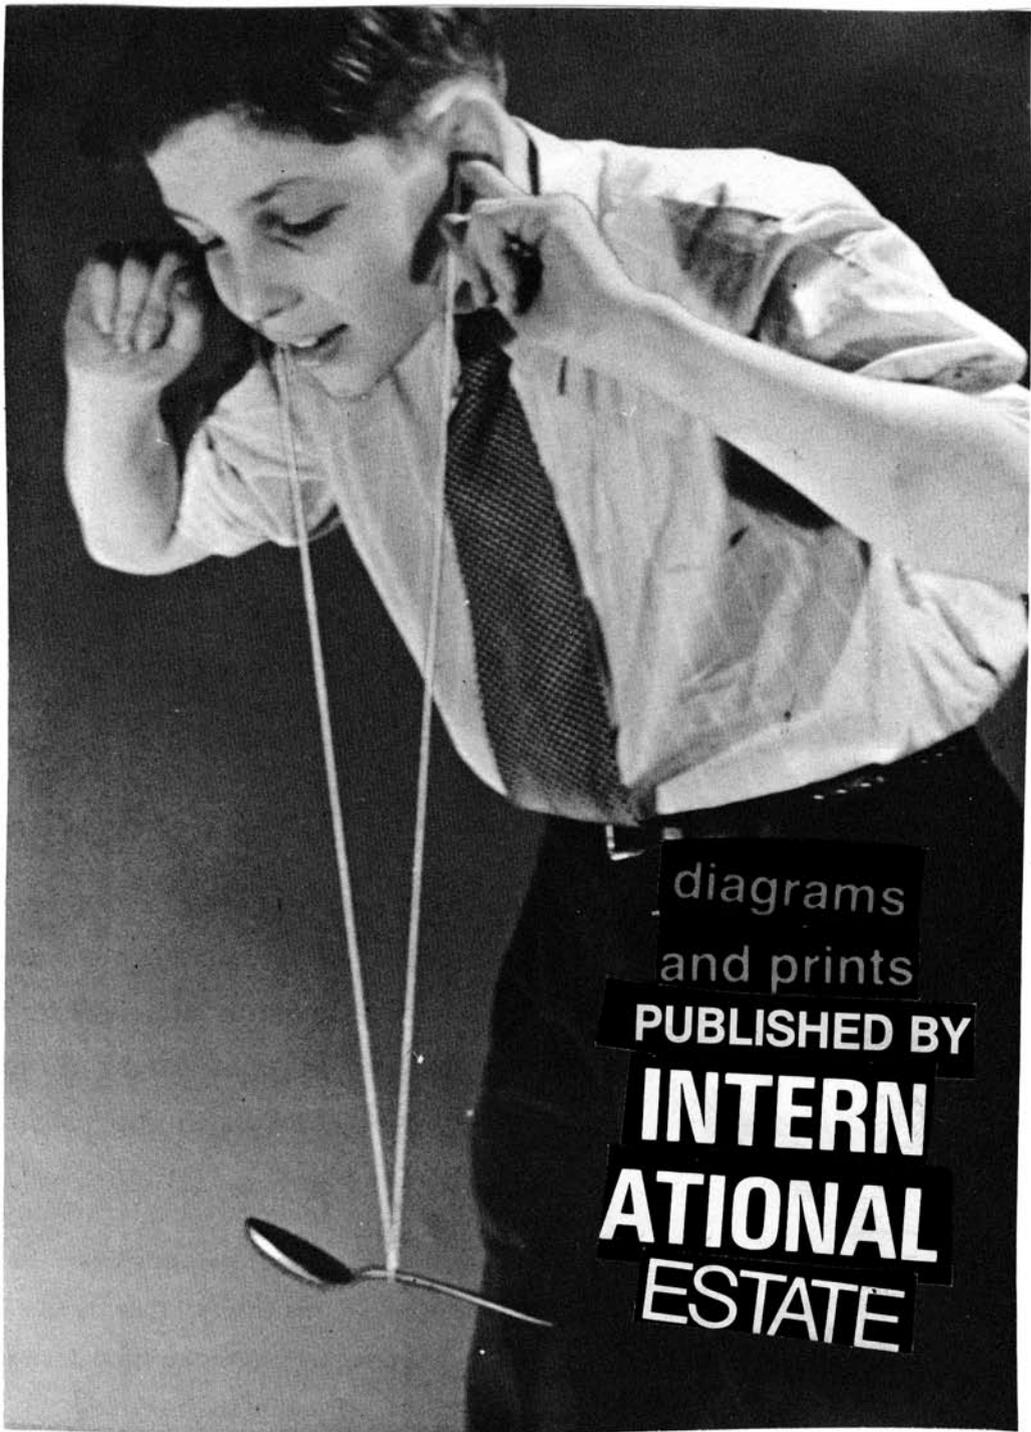

From the beginning THE BLACK BLACK BAR  
EVENTURE was intended as a filmscript, both literally  
& associatively. The book was constructed from a  
month of various newspaper headlines & wirephotos.  
I have attempted to document a non-idiomatic thread  
running through all media.

One version of the film has been realized by myself, a  
25 minute color super-8 silent film which is normally  
used as a backdrop during an improvised intermedia  
performance.

Many versions of the script are possible in film, video,  
animation, holography, flipbook, serial photography &  
as a performance text.
