Introduction

A READER OF 30 YEARS AGO probably would have needed a variety of reader's guides and keys to the understanding of almost all "modern" poetry. Legitimacy seemed to depend on intelligibility, on the essentially literal quality of a writer's expression, which the reader then studied and worked with(in/)/out. The guide — person and/or object — became primary, just as the classroom itself was the locus of most poetic experience for reader and writer alike.

Today, the triumph of what I see as contemporary poetry is its natural rejection of these external conditions of legitimacy. All over the world writers create work with its own authority and force, without the benefit of "schools" of any sort, and readers are free to approach this work independent of any formal guide. The educational process, if there is one, the explicatory exercises, if there are any, come with the reading and the writing. No one can dispute the phenomenon of the hundreds of writers, aware of each other, yet independently creating vital expressive work, independent of categorical explanations, independent of manifestos and rigid critical systems.

In the case of Peter Ganick, we have a body of work that, firstly, broadens our taste and, secondly, expands our knowledge about all contemporary writing. This is not "literature" to be studied and intellected. It is not poetry that tries to recover the experiential or emotional past, or to camouflage the intellectual present. Turn to any page and be thrust into the midst of the poet's creative activity which is grounded in/on perceptions shared by the reader. Important recognitions of tempo and place immediately engage the mind/eye: orientations are achieved without maps or guides, and remembering Olson ("We Americans have nothing but our personal details") we feel an uncommon correspondence between his and our value of the detailed wor(l)d: we find ourselves in an open field of possibility and creative opportunity.

Ganick's poetry is not for an impatient person. Resolutions come slowly, sometimes painfully, and while there is always a sense of active intelligence, the truth of intelligibility's weakness prevails in the end. We don't move toward a conclusion (logic), but rather coexist within a multiplicity of appearance, with a dense simultaneity that might imply change, but more probably warns of an endless number of possible "directions" for change. Despite an apparent materialistic rigidity in his work, a laminated, forceful stiffness, Ganick manages to project a number of open possibilities. The rhythm and velocity with which words and ideas are generated in each poem never move toward a single totalitarian end. A phrase might resolve itself (unintentionally) later, either on the page or in the reader's mind. Ideas are generated and they linger, often working on a variety of subsequent ideas that resolve and persist at the same time. Sometimes the very finality of an idea or word or phrase — its weight of silence — persists as a void simultaneously perceived with the active consciousness.

Another important aspect of Ganick's work is its overall power of exposure; its ability to reveal, within and without, the reader and the writer. This may be its most powerful characteristic. With almost no reference to ritual or myth or history of even the most objective kind, he reveals a persistent side of the world that often is lost in the seemingly random display of events and facts in daily life. The consciousness is active/passive: a stimulator and receptor. We achieve a state of equanimity and balance that seems somewhat utopian in retrospect. The poet's voice and the inner voice of the reader engage in a variety of relationships and rhythms and harmonies that recall the emotional force of some musical experiences.

This aspect of self-revelation, this interior key or essential map, completely free from obstacles and restrictions, ultimately carries the reader to the heart of Ganick's work: radiant self-generated intelligence.

**POEMS
IN NEON**

HOW YOU ARE HERE

we modelled february in th computations,
modelled pieces in th heresay that
cannot be funnier from that pleasantry
of th heart in shopkeepers:
an xmas torte,
a solemn friendship.
she, hearing thru walls,
th impact of swizzle sticks upon refurbished mediations.
after a song in th heartland,
th procession rewards those trying creature-compartments
in a fabled isolation
by talking thru from one to zero
what is nearly indiscreet.
th mundane story hides a wall of cartoons,
floor to floor,
bridge campers and flux rechargers,
all minds in favored structures
that once a song is started
it refuses th stoppages.

ALL THOSE
arrival and surprise,
each defensive attribute of those too closely
shut down,
so mindful of desert oases
as to be fully recharged in buddings of solemnity.
masks are th invitation of a close caller
cruising th eventful stricture
near a trial planet whose
generations of halfwits migrate unsurely.
to th maximum of th penchant
that crushed finds th appropriate solution,
has captive understandings to refuse damages
until a wider service letter
calls it down from th cross.

TH SHIEK OF SORROW

any myopic analgesic works,
be a generative soap-house hostile to infancies
whose midrange walks where th insertion reverts.
whomever cannot trust inputs
is foreign to radio.
you talk to solvent apprentices,
heroic th inception
where insects and plaudits cruise
gravely until hidden rotors cripple th forward emotions.
she, blanketed in a resurrection
calling for however they plan it,
feels regret that tinges all solitude,
th mood drifts amidst
haiku and ode.

TEARS FROM ASCENDS

impatient as a cultured costume gets into
th slow fizz,
magic soapsuds in restive arrangement are all
that an evidential surplus emoted singularly.
wondering about screams seem thru
nighttime sofas and modules,
each piece of dense fortune emits resonant
surpassings.
grab hold of that flyer.
a rhythm of that accumulative solace - deep
finesse - magic sutra.
gravely they paunch at wildness formats,
downstairs you see shovels and pundits, larders of
accomplices and greens, all stinking in magpied
colorfuls of skill and apprehension.
suave, that is, seeming to fit
nearly undraped in marketplaces of fantasy,
worms unearth th holiday - they invent news that
protrays th alternation of cosmos and materials.
growing thru a yearned absence, such
feelings of expansion in rules cause each
toggle switch before return to be an item they call
soda. to evoke th purest love without passion,
without a center in reality,
without flames those pushy flavors multiply in...

FOUR CHURLS

she is neatly inveterate,

his presence is as manageable as
whetted stoneware.

theyre screeching thru a wall pierced by
a nail in th feature.

such handiwork as th majesty was
infilled by offering a household to
a neighbor who names
infinity before th children.

DEEDS FROM MOTIONS

he was just as emphatic in sorrow about
th day of a pastime become future event.
so nervous around th calling of woolen shoecovers
and fuses sounding broken by th artisan, an
inveterate salamander who forgets to riddle
his accomplices, gets holed up in tangents,
likes it from evidence to feature th shuffled impacts
of fewer moodswings than some halycon proteans.
farmers advise th top o th mornin ta ye.
liking to th reward for a slow sitting
thru th prettified inner tensions that evoke
slow shows.
one is mindful of accomplices begging in fetal postures
for caps sized after a dinosaur.
shepards amount to favorites, their
fast ruling class work is th death of sourness,
their plastic armies arrive whenever discipline sounds
in sonics.
that is why it is in th featured and slow dramas,
how moods are fewer than life at th longest.
a sponge in th heart
knows as th light comes in.

LITTLE MESS

she is worrisome when favored - how th fetish
of gravity goes to
colored paper and real-time seances.
whichever of those appreciatively retarding motions
does not snap fingers, has
wild muscles in an inward span.
soap operatives nurse th doctoral sleaze,
heels fall whenever th decisionary process is
not happy,
therefore anything you variably accuse
becomes great
in a mood so hurryingly.

CONDUIT

as to th once that you sleep upstairs
where personally trusted by a nature
of wisdom during all hours of defense,
that music plays to reinterpret each mystery
being there.

love is here showing how placement can betray
space-time continuity.

you dogged th case until referred to by a
commencement of school tensions.

hermits peruse those funnier sceneries, they
have yr identity stocked with ears and
docile underpinnings.

there is a likelihood of all serenity,
all similarity in portion howeverd
to hear th natural solar voices.

he murders for th wallet while pushing at
throated manacles,

his familiarity and generosity
sleeps entertained.

SHORT FALL

to shriek about pulses
while th mind becomes musical in aspect,
she returns holding patterns in yesterdays
of filtered spaces.
it is a triad underscored by mites and rare
bugs in renewal,
it has that growth of harsh ego taken care of
by moods in filaments that correctly intend
to reinvent crossed oceanic salivas.
mercies on th driveways of persuasion are often
forecasted riding deranged highways.
shooting thru walls of iron, a rebellious
shout and fever in th summertime,
goes there in a spoken muscle
that disorganizes th whereabouts
of captive surveillances.

 as a rage prepared to circulate wild

stories that th planet accelerates
 within circumferential litigations, th
 parties to an apartment, a color wiz-
 ened into urgent posterities; when
 activated th sweets invite selfhood.

mercifully th stragglers have in-
 spirings undefiled by th alternations
 of mood and summary. learning to
 emote under these circumstances fre-
 quents th massive cold heap under a
 worsening lamentation; all insulations
 by once which th fevered growth
 assumes context.

which this is: impossible to refute
 ut-mi-sol, tho actions can relate only
 upon th mind of a form prepared.

captively reunited talking or
 silence-breeding, th merciful attitude
 survives until fragrances divide pol-
 icies of love; th handwritten text
 applies moods that limit rejuvenation
 procedures; vis-a-vis th message
 unmentioned or feasible becomes
 tuned and truly harrowing in ex-
 pression.

trying th relay-feature of stand-ard textual solemnities blends a poetic nursemaid with a horrifyingly feasible secondary, a polluted survival bending fields of whatever you retrace in obvious-to-oneself hardships that th worm of relatedness captures decently and finally.

if saying yessir became as marginally a back-step as that flying honorarium, gently labored over in fact mauled by th high-rise buildings at agadir, th mood swatch-patterned for analysis into famous rotisseries, it becomes finalized only under rules already working out their fantasies.

in time to get cold, truth has its fanciful attention to belief in resultant consequences; once final, once th work belies rituals if contact, one never wishes defensively or purely to assign details to soft-harnessed magicians that fly eagle-backed and pressured into folly.

when it is once to be freer, assured, and peaceful; trying to assert derived patterns assumes secondary ideality; first frump walks th tower-walls, second opens a restaurant behind limited vocabularies, juggled informations, and toggle-operated second endings.

stately ornaments to a divine aspect

 th hearsay a vault of surplus, minds

giving th heart a twist before

th mind, tragic or ornate, indeter-

woefully says, work begins when
life imparts th guileless motherhood

values you too can imply.

all of which is nature or control,

parched deserts that giving in this
recreated sensitivity yesterday solves.
dancers and culinary formidables

a flower deeply faded, intensively
resulting where lost in skylights,
water pours from ear to neck by gen-
erating a quality of life that invariant
with respect to gravity and restruc-
turing calls graceless or free of such
ideologies. th punishment is always
deferred and self-inflicted as it reverts
in sudden pattern to th copper mouth-

anechoic sundries of passivity so quiet that life lived in which lesson society learns from activity. getting anything limited by feverish airplane transits, sound over th horizon in a dense pretech-volleyball service. (moods follow rules that enzymes become one hundred stray ordinates; collars forbid tracings of th heart.)

cant evoke what aint there, th soloist on a geriatric saturn pauses related hardly to points in space. th placement reveals itself as a factor in its contradictive surveys.

thinks and thinks of these things, a forementioned neglect parades under solvent skies with th changeling of a related-into being, a follower not docile and pure hardly notices which emotion has th option so eclectic as a sneeze terminates under sorrow; focus in on worriless tragedy if controls go haywire and they dont.

it is felt as dutiful the essay of changes apparent in living, the words happen wherein trouble from carnivals talk with hermetic saviors; english is the preferred dimension talking in the ballad tradition now in running shoes before lunch-time.

a limited meanness of creation says of it that meaning whichd always have evidence before criticising itself is created in possibility that destines holding for a headache the transits of personal fruition. mastery of such evidence connotes dungeons where pottery darlings are shorn of such listless noises, history as narration complies a spoken danger.

whose wonderful treasury hassles about a widely reinstated talking-to is at screening intervals measurably unfit for solution by current computational increments, for a favorite is based on innate epochs, spiritual fevers arent the salutary cosmos in ten archives from cutrate to deranged.

as sublimation equates what has no answer, the restaurant looms opportunistically for forming calcifications under the skin.

lien space becomes intense with earth-

cornucopia was so care-inducing yes-

learning when to say enough, perhaps
it starts here heartfully wise and lov-

created by and for, with and without,
hackney if rocket-boost.

th ground cries from cages in

 ment never dives twice before terra
 firma becomes th emotion underlying all
 evidence, grown and risen.

unlike th philosophers saying being
 is mind upon matter, th rhythm of life
 is between th factor of gravity and
 elevation; messages before wooden ears
 divide harnessed energies in tirade
 from whatever craving escapes itself
 unthought of in earnest.

ions; all's internally-fractured charac-
ters understood as root equation of

haunted by earth, oil and water; th
phrase goes undreamed and continued.

life is a synch of blue and
grey: th frosted treasure is that
of a messages' inner-spring; you
serenade all ears before reminders
of mortal creation. life undying or
illusory, threatened to treat as one
loiters in destiny; farther on there
is contact, having no ears nothing-
ness cd expose fewer grooves.

glazed futures cause high-tech manipulations, casualties of the fever in terrible hours, messy clean-ups demand heated porches before the mutiny assigns details; heavy as the light those pods once noiseproof go dancing in starlit hummocks through equal eternities.

which worth of allergy capitulates the heavenly triad; a miniseries devotee calls it fewer than ten in the bartered pushover. sung of the capstan, in miff with authorities that accumulate high-rise futures bereft and silent, all begin at the source which the near humor calls feasible: it has no reasons.

documents come in three folders: sunday, monday, tuesday; streaks see in brown hair, faraway eyelids from unseeable distances all to look in a heart, formally of that dance-orchestra's heights; the ridiculous worrying fails to favor intolerant musicians.

 backgrounded by intolerably icy limits;
 however th yokels cd replace th heart-
 ful with an ear to create hot misery,

 happy and graced thru hours without

 eager for th multiples.

 tandem and gentle fractures itself to
 go for ghosts in th brain, that a
 flyer becomes a time-taker in what
 doesnt return being lame or scarred.

animated thru th organism from
 once-shaped esoterica, a triad of
 spaced orders whose effects relay
 happiness to moods understood is to
 be less than salient in past phases
 of speaking. this is a storehouse to
 beware of; it fills in blanks with a
 strayed lick; it never eats undecided
 principles. all truth becomes a mag-
 net in its honored pageant, spaces of
 th reflected light cry ouch.

 blasters calling out from greatly-
 worked ideals; moods, fitness cameras,
 all teevees in earth's crust, th magic

 whirl of world; these are signs fright-
 fully left at th teacher's lapel; you
 must evince from one letter th compar-
 ison of ten thousand years of devel-
 opment in spoken giveaways to under-
 stood inside routines. creation cannot
 fail reasons when it is pure as puddles
 of diamonds.

what is it of nature wherein the piercing of limitations causes feelings at the motile curiosity to cut evidences? that effect of answer, thought and repartee, spending at least by the color of pictures and reviews.

time's fable has an acausal anxiety posing as this fastener stuck in earlobe, harnessed to throat, full of disaster or disease (to be unprepared), well thought of by rescuers, that cannot but harden the skin into reflected wisdom; on the hour, those fables become freed.

from episodes as a magic under-study already on the island calls for more picturesque threads, remembering this next week, as a time-frame liking everything (likelihood of everything) contacts in multiples of seven; day-to-day in week-to-week, eight to the octave; larceny of the magi clinched those buttery earrings, five hundred feet of therefore's could not de facto decode personalities until crushed as almost there.

reinfected modalities are first to consider. forward motion capsizes thruout universal episodes; doctors, theatricals, and pharisees, all evidences of crass internationalism are sly as th foxglove; a panache ridiculed fewer threads whereas mostly budding thru love in heart becoming itself: farther along th future slows down.

what reinstated fractions gave th possibility of listening without asking for, th future relishes upon dogtrot suddenlies; panthers if you egress.

notions folded and once limited retain phraseology, because it selfishly elongates which truth can easily seek more reasonable epochs.

a town th size of wherever you go, a variation on threats of denouement, of starkly rhythmic juxtapositions; years that promise glass eyes and personal inspirations; lone as th sky does not fail to report downtown aspects thru attitudes of creative listening.

dripping paint or drip-method coffee, literally scorned in intensity provided someone harkens to the pastime of eliminating all indexes of personality; proteges and musicians leave the focus unblurred, those pedal-steel effects are imaginary and real simultaneously.

a sacred treasure becomes the feature serenaded by larks whose tongues fill with dew, rolling hipsters into moving vans, sending the cat's portion to relate with deliberate study to effects and reasons, there before becoming thruout thrice phrased.

real happiness comes in messages from dignified tempi; alert to scrape unfilled areas clean, the reason assumes potency before secreting all the plans from visible attitude; factually a mind-storm repeals what once noticed only therefore to be spared refers to false options, a trial to insomniacs.

what are textile moments? the fear of that inspiration of those creatures?

slick phantasms of greed and ignorance?

 how pastimes get larger tho remaining
 untried in otherness. th sleaze of crav-
 ings bends turns and fades thru its
 intermittent oceans; gets wisdom before

 triad of acausal indicators (in that there
 is nothing there).

which feeble voice enlarges, gets a magnet and a walrus from scarf-places in closet, varies the treatment untermiably so that your instigation invites the cornered animal whose partitas are to hear, slightly protected in a crowded situation. perhaps ownership is trying at frames for being the reasons why.

if in effect you caringly toss funnels sky-wide, the preposition of elections will greet sundry vacancies in space with startling oceans of the jinx unrisen; itself is in early morning unknowable from lazy chokers disguised as pincers.

just because it harbors the clown, a fantastic dreaming begets in sleep tools of white lapidaries calling dictionaries to release what innate talent shows up as gracefully tricked.

studiers of american catnip inference lean upon whose deeds th southern orations are a blockage of satire, litigations unpromised (i e taken from sight) by nervous explicatorial exactitudes, unlike statements that react blindly to what shld in these ears be a radio; that is unaffected by th groundless overshoot and favored isolations capsizing understandings th world takes its time to bless.

th ocean has no love that goes un presupposed, in itself th magic cannot rarify until academia cdnt exist without blue-in-th-face know-hows; anything in undertones thought to be enjoyable as any frosted cream-puff worries less than that in seeing possibilities of th effect direct to heart undermined by no previous truth.

as if in time the scourge of whenever bosses inflate to ingratiate whose jealousy evokes perhaps the hellos and goodbyes, is naturally those fringe melodies' sense of reality, insincere from what are modular controls, once stated in the ocean of snarls growing wiser, never that an insertion reclaims triviality.

creatures of every hummock are talkers in mid-stream to the photographer of the mindset. suffering the delays and pretensions, all in a hardly finished daytime, the punishment relates to anterior stakes.

things differently positioned radiate unceremonious detail to the glassy-eyed punch-out afraid of nothingness, however peopled the rooms are.

docile straplings where the fun-house ponders the new return to assigned arbitrations, getting many items redone for the chapped informations; features the holiday couldnt include were those that no favored serpent monetary or stylized to include such could beggar the futured occasions.

stray maps of glaring sunshine cause heated articles (the mercy in shopworn shovels), heart and soloists (all fodder) to realize intentionality under terms so disparate.

cosmic ornaments creep thru feelers and heads, perhaps a visit crushes th draw-bridge before th store becomes an indulgence.

pittance of before and after, th moods circulate where there'd be ordinarily insurmountable fractures of derivation that support whose choice is deliberately understood. favored by th darlings, a newspaper rushes thru frequencies as th little girl cries over th learning of mood and mixture in lapel surcharges that didnt include such pointlessness.

th maven of th circuit is already behind th wheel in another state rather neatly soaring in public where transcendence implies a causal starting. once furnished and merged under those circuits, all forms and states of anxiety or funning complete innate functions efficiently.
